1. Using a Vise-Grip pliers or hook, Start by removing the spring that holds the lower header together.

2. Next remove the 5mm bolt that holds the pipe on the passenger foot peg. **Note** You will have to use the lowest bolthole if your bike has the baggage, not the one on the passenger foot peg.

3. Remove the pipe by pulling away from bike.

4. Install supplied bracket loosely with 8mm bolts as shown in figure

5. Install new pipe in reverse order. First, Place header in to the lower manifold. Next, insert passenger foot peg bolt and tighten. Next tighten the two bolts on the lower part of bracket. Next apply supplied Forza sticker as shown in figure.

6. Repeat steps 2 thru 5 for the other side pipe. Once step 5 has been completed for opposite side. Reinstall spring by attaching both hooks to the new headers.
